POLYWURX™

INNOVATIVE CONCRETE REPAIR SYSTEM

15-45 Minute
Repair & Cure Time

POLYWURX™
HAS YOUR SOLUTION!

Why choose Polywux over traditional methods?

TRADITIONAL METHOD

4x stronger than traditional method and is chemically resistant

STRENGTH

The traditional method uses oil-based binder (asphalt) & cement-based for concrete

No formal guarantee

Speed & Simplicity = 30 minute cure No business interruption

REPAIR TIME

Closure of lane & parking lots are often required. Repair area must be cut, removed, replaced & compacted

Repairs can be made year-round

SEASONAL REPAIR

Asphalt / Concrete repair in Summer - Dealing with closed plants

RAPID REPAIR

for **LIABILITY PREVENTION**

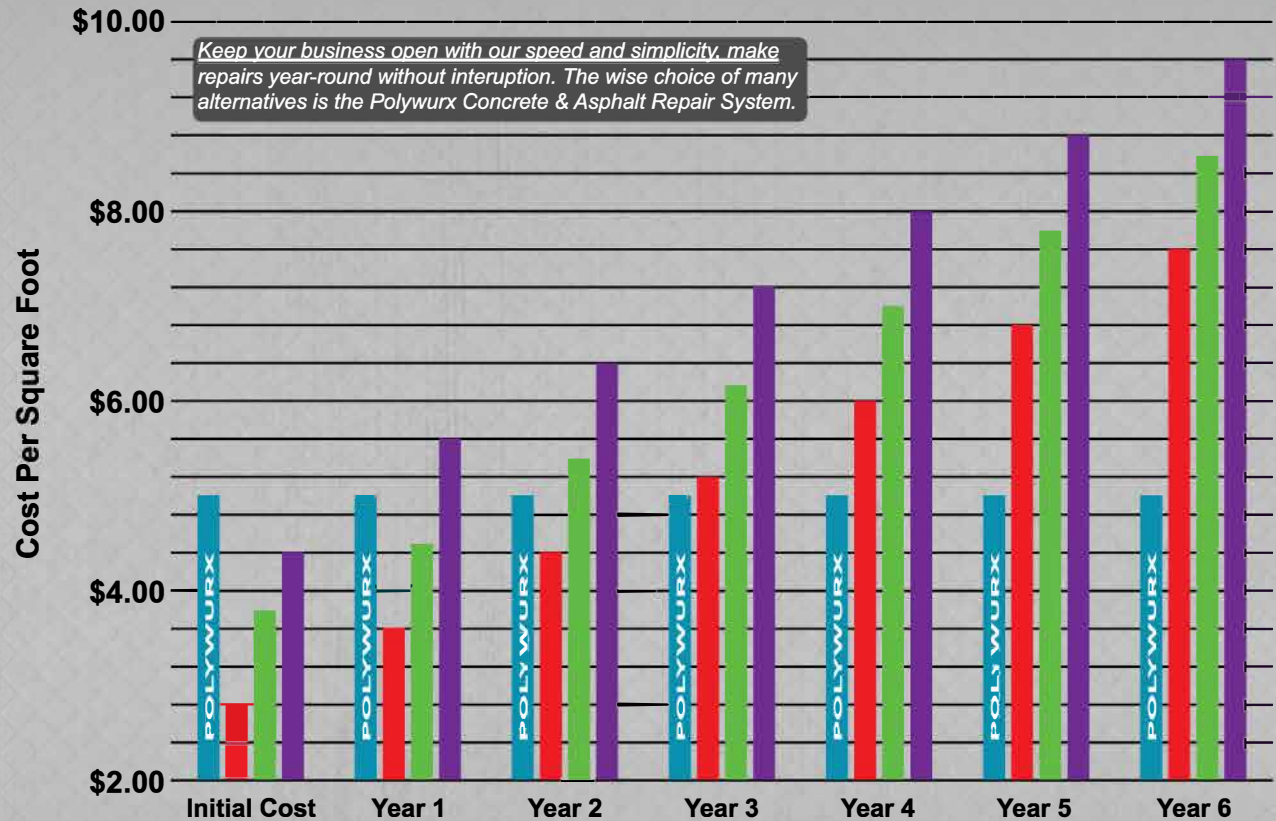

Lawsuits are up 27% for concrete and asphalt related personal injuries. Let us teach you how we have helped several national brands overcome this expensive issue.

2 Gal = 10 ft² (@1/4" Thick)

3.5 Gal = 15 ft² (@1/4" Thick)

1 Gal = 10 ft² (@1/4" Thick)

| POLYWURX | Initial Cost | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
|---|--------------|--------|--------|--------|--------|--------|--------|
| 6 year Accumulated Cost @ \$5 sq. ft. Initial Cost | \$5.00 | \$5.00 | \$5.00 | \$5.00 | \$5.00 | \$5.00 | \$5.00 |
| Traditional Product Accumulated Cost @ \$2 sq. ft. Initial Cost | \$2.80 | \$3.60 | \$4.40 | \$5.20 | \$6.00 | \$6.80 | \$7.60 |
| Traditional Product Accumulated Cost @ \$3 sq. ft. Initial Cost | \$3.80 | \$4.60 | \$5.40 | \$6.20 | \$7.00 | \$7.80 | \$8.60 |
| Traditional Product Accumulated Cost @ \$4 sq. ft. Initial Cost | \$4.80 | \$5.60 | \$6.40 | \$7.20 | \$8.00 | \$8.80 | \$9.60 |

Packaging Kit contains epoxy liquid (pre-measured "A" and "B" components) and custom blended aggregate mix designed for smooth, easy troweling.
